

Report Instructions — Spring 2026 (Season 26a)

This document explains the reports available for the Spring 2026 season. All coaches should already have received the **Accessing Spring 2026 Reports.pdf** file and shared it with their teams. A copy of that PDF — along with these instructions — is also available in the reports folder when opened in your default browser.

If you prefer to skip the instructions, the [NSL26a-Reports](https://nslgames.com) link is also available near the top of <https://nslgames.com>.

The [NSL26a-Reports](#) folders and files have been arranged to make navigation more intuitive.

When the link opens, coaches now see the current “All xxx” reports immediately following three navigation points: **Prior Weeks**, **Location Details**, and **Instructions**.

If instead you go into [Location Details](#) and select your community, you'll see the current reports for that location, plus a **Prior Details** link for that community's history.

"Scorebook" is a new report that displays posted scores, including any automatic missing-bowler credits.

"Scoresheets" is the recommended format for team captains to report scores back to the coach for posting.

Now, looking at **NSL26a-Reports** , the most important one is the bottom, **Directory**, which shows all participating communities and the number of teams with scores posted **last week** and **so far this week**, as of the timestamp in the upper-right corner.

All coaches responsible for posting scores should routinely review this report to make sure scores they posted have been imported.

Color coding:

- **Green** — all teams posted scores on time

- **Yellow** — a community missed last week’s posting deadline

This is the quickest way for coaches to confirm whether their community is fully up to date.

Available each Saturday after a week is completed. Now, teams earn points towards their conference championship, earning +2 for each of the two games and +1 for the two-game total. This report shows the following for the previous week:

- Prior week average, scratch scores, and scores with handicap added
- Conference points earned this week, total so far, and update conference rank
- Updated average with the new scores, updated division based on updated average, and division rank

Note: Conferences will display a "Provisional" advisory if any team shows zero points due to missing late scores. Monday 3pm those are converted to missing bowler scores for the team.

• **Scoresheets**

Printable pages for each team. Coaches may distribute these to captains to record scores before posting. Because any bowler name may be deleted, changed, or added throughout the season **as long as no scores have been posted yet** for that bowler, this Scoresheets file is regenerated every time a bowler on any team has been changed.
