

Report Instructions

This document explains the reports available for each season. All coaches should have received a PDF or a link to the PDF to access season reports. Please contact the league secretary if you need another copy.

=====

The report folders and files have been arranged to make navigation intuitive. When the link opens, coaches will see the current list including several folders followed by reports for the most recent week. All examples that follow are from a recent season:

On most devices, clicking any report displays it directly below the list. iPhones open reports in separate tabs. If you choose [Prior Weeks](#) you'll see a history of prior week "All Matches" reports.

If instead you go into [Location Details](#) and select your community, you'll see the current reports for that location, plus a **Prior Details** link for that community's history.

"Scorebook.pdf" displays the most recent import of the community scorebook including any automatic missing-bowler credits. **"Scoresheets.pdf"** is the recommended format for team captains to report scores to the coach for posting.

You can return to a prior view by using the Back button or by clicking on any of the underlined breadcrumbs, such as: [NSL26a-Reports](#) > [Location Details](#) > [FL - Fleet Landing](#) > [Prior Details](#).

=====

Coaches don't need to be reminded daily, so all instructions files are located in the "[Instructions](#)" folder. That includes a copy of this "Reports Instructions" file.

=====

REPORTS:

The most important report for coaches is **Directory**, which shows all participating communities and two pairs of columns: last week and this week, showing the number of teams expecting scores and the numbers of teams with scores posted.

All coaches responsible for posting scores by the Friday deadline should routinely review this report to make sure scores they posted have been imported. This is the quickest way for coaches to confirm whether their community is fully up to date.

Color coding:

- **Green** — scores were posted for all expected teams.
- **Yellow** — a community missed last week's posting deadline

During Conference competition and the first Playoff competition, the number of expected teams is the same – every team needs scores posted by the Friday deadline. However, as shown in the following image, the number of teams remaining in the Playoffs were reduced (with some communities no longer participating), and more were eliminated in the second Playoff week.

• All Matches

This report is available each Saturday after a week is completed. Now, teams earn points towards their conference championship, earning +2 for each of the two games and +1 for the two-game total. This report shows the following for the previous week:

- Prior week average, scratch scores, and scores with handicap added
- Conference points earned this week, total so far, and update conference rank
- Updated average with the new scores, updated division based on updated average, and division rank

Note: Conferences will display a “Provisional” advisory if any team shows zero points due to missing late scores. Monday 3pm those are converted to missing bowler scores for the team.

• All Playoffs

The first 7 competition weeks are round robin competitions within 8-team conferences. The next 4 weeks are single elimination competitions within 7 divisions. Division 1 has the top 8 teams by scratch average. Divisions 2-7 evenly distribute the remaining teams by scratch average.

Division 1 immediately begins the 8-4-2 single eliminations and finishes in 3 weeks. Divisions 2-7 start with a Free-for-All battle for the top 8 scores, and those teams advance to their respective 8-4-2 single eliminations. The following report shows what happened in the first Playoff week:

Note that there is also the same Scorebooks report posted just for your community in your Locations Details folder.

• All Standings

This report is a compact summary used by captains to find their conference and where they are ranked within that conference. Ties are common early in the 7-week round-robin but will resolve as the season progresses.

Note: Similar to All Matches, conferences may display a “Provisional” advisory until Monday 3pm.

• Certificates

At the end of the season, the Certificates PDF contains one "Competition Certificate" for every bowler with any scores posted on any team, with multiple certificates for bowlers competing on multiple teams. If the bowler has earned any team honors (Conference Champion, and Division Champion or Division Runner-up) and individual honors (300 Club, Top 25 Averages, and Most Improved Bowler). See the All Honors report.

• Details

Each Details report includes a summary page and details for each team in the community side-by-side with their respective opponent, either in a Preview for the current week or in actual results for the prior week.

Each Details report shows:

- Every bowler on both teams
- Prior averages and handicaps
- Scratch and handicap scores
- Updated averages and handicaps
- Conference and division ranks
- Conference points (Weeks 1–7) or playoff wins (Weeks 8–11)

• **Scorebook**

This report is an extract of the very long main “All Scorebooks” report showing just this community, providing an easier way for all team captains and bowlers to confirm their scores were posted and received last week. If a team was credited with any Missing Bowler scores (average minus 10 points) then that score is shown here in purple.
